PROJECTS

PROJECT-1

My Restaurant

(Html,Css,Bootstrap)

My restaurant project aims to create a memorable dining experience by showcasing seasonal, locally sourced ingredients in a cozy, eco-conscious environment. The space will foster community connections and encourage culinary exploration, while our commitment to exceptional service

PROJECT-2
bOOK MY TRAVEL
(Html,Css,Bootstrap)

My travel project focuses on curating personalized travel experiences that cater to individual preferences and interests. By combining local insights with sustainable practices, we aim to create unforgettable adventures that foster cultural connections and environmental responsibility.

PROJECT-3

E-COMMERCE WEBSITE
(React.Js)

An e-commerce website allows businesses to enabling customers to browse, compare, and purchase items conveniently. It typically features product listings, shopping carts, and secure payment options. This platform enhances accessibility and expands market reach for both buyers and sellers.
